

CTCI Partners with Global Suppliers to March towards Sustainability

As the largest domestic turnkey contractor, CTCI has won international recognition for its brilliant corporate social responsibility obligation performances over the years. CTCI has held a "Towards Sustainability - Better Together" 2018 CTCI Supplier Meeting on March 22, 2018, in hopes to collaborate with its supplier partners to fulfill corporate social responsibility and exert their collective global influences. CTCI also shared and promoted its business sustainability philosophy and achievements in order to build consensus, grow together, and create innovative opportunities in terms of environment, economic, and social sustainability development orientations.

A total of 24 suppliers from Eurasian region including Italy, Spain, China, Taiwan, India, Japan, South Korea, Singapore, Hong Kong were invited to participate, and a total of 44 high-level executives of these suppliers have attended this meeting. Todd Chen, President of EPC Operations, Ming-Cheng Hsiao, President of Group Shared Services, and Ting-Chuang Li, Senior Manager of the Procurement Division have represented the company to welcome the global suppliers during the event and shared the sustainable development and business outlooks of CTCI. Meanwhile, two heavyweight scholars/experts, Dr. Eugene Chien, Chairman of the Taiwan Institute for Sustainable Energy (TAISE) and Dr. Yang Ku, CEO of TAISE, were invited to give keynote speeches on the topics of "International Development Trends and Targets for Sustainable Development" and "Sustainable Supply Chain management," respectively. Their speeches explored the key connections and impacts from the implementation of the United Nations Sustainable Development Goals (SDGs) toward enterprise sustainable management, social responsibility investment, sustainable supply chain management, etc. The goal of the meeting was to enable participants to have a clearer knowledge and understanding of the sustainable enterprise operations and supplier management practices, and enable everyone to cooperate more closely.

During the meeting, CTCI specifically described its policies on quality management, Safety, Health and Environment policies, procurement operation procedures, and supplier management, as well as providing its future business outlooks. CTCI also awarded medals to manufacturers that have supplied excellent products in order to show recognition and gratitude for their support. The objective is to inspire more vendors to create intimate partnership opportunities with CTCI on a win-win basis.

As a member of the global village, CTCI has continued to fulfill its corporate social responsibility while pursuing enterprise growth in hopes to achieve corporate social responsibility with its partners together. In addition to being the first company to have its CSR reports to receive third-party verification in Taiwan, CTCI has also become the first in Taiwan to be selected by the Dow Jones Sustainability Indices (DJSI) for three years in a row since 2015, and the only Taiwanese company selected for the engineering industry category. In addition to establishing sustainable supplier chain development strategies, CTCI has also counseled and assisted suppliers to enhance their international capabilities. CTCI has also enhanced their awareness and corporate social responsibility executions via continuous sharing and advocacy. The goal is to enable the global suppliers and CTCI to grow together, and jointly move towards the path of sustainability.
